Permit number:

Project address:

Owner/Applicant name:

Contractor name and contact information:

Inspection specifics:

PREFERRED INSPECTION DATE:

FIRST CHOICE:

SECOND CHOICE:

THIRD CHOICE:

INSPECTION REQUESTS CAN ALSO BE MADE ONLINE:

To better serve the customers of the construction department, Byram Township has opened a public internet portal that allows access to building permit records and application status.

One of the many features SDL offers is the ability for public internet access to building permit records and application status. By utilizing this free service, members of the public can search for building permit records and application status on their own from any internet-capable device.

For a tutorial on how to do this, visit <https://help.spatialdatalogic.com/hc/en-us/articles/360058448792-SDL-Portal-Advanced-Search-for-Permits>

Secondly, if you have an open permit and would like to schedule inspections, you can use the portal to accomplish this as well.

The portal is available here: <https://www.sdlportal.com/towns/nj/sussex/byramtwp> - you will be required to create an account to search records or schedule inspections. Click "Create an account" on that page to do so.
