

Byram Township Obtains \$20,817 from NJ Clean Communities Grant Funding!

NJ DEP recently awarded the annual Clean Communities Grant monies and Byram Township received \$20,816.93. Thank you to the efforts of community volunteers who participated in the spring clean-ups and who reported their results. These groups included Salt Shakers, Brookwood, Forest Lakes, Cranberry Lake and Lake Lackawanna community residents and Byram Township Environmental Commission volunteers.

As per the Clean Communities Grant stipulations, Byram Township will use these funds to support future clean communities projects, education, equipment purchases and/or enforcement activities. Previous year's funding enabled the Township to purchase recycling and trash containers for its parks and fields.

To participate in a future project, please contact Donna Fett, dfett@byramtwp.org or call 973-347-2500x138.
